MODISH DESIGNS FOR CHILDREN.

rainy days.

ingly attired, and attractive in every We are showing two modish designs for smartly dressed children. The frock on the left is given a military tone with its front panel and cuff trimming of narrow braid and buttons. The material is the lightest weight pale blue chiffon broadcloth, and that combined with the silver braid and buttons makes a most effective little dress. The long-waisted bodice is joined to a plaited skirt under a sash of sapphire blue satin, the latter tacked at intervals on sides and finished at back in graduated loops. Miss Dainty on the right is wearing a quaint, pretty frock of green-striped white challis, with closing on left side. The little skirt is made in tunic fashion and cut away to show a plaited front. The belt is green velvet, a few shades darker than the stripe, and matches the covered buttons and sleeve bands. The neck finish is a flat

> With the season's double-breasted trouble. It should be recut, the buttons at the waist line.

wondrous fascination should cultivate the gown coming next the face. Corded ribbon is being used as a trimming on several of the daintiest of the ready-made evening gowns.

Coats of material contrasting with the skirt are a good deal seen, velvet eing the most used with cloth skirts. Black fur is by far the most attractive pelt for the trimming of the numberless green suits and gowns worn

the same as silks. Seed pearls lead in the list of jewels for hair adornment. They are used in combination with fluffy tulle every condition in which she may be minutes or on the classic bandeau.

Petticoats to wear under velvet gowns have an upper part of mousse line de soie, with a flounce and little frills of some heavier silken fabric.

First of all, silks will be worn this year, especially changeable taffetas of two tones. This is really the most important feature as yet developed relative to forthcoming materials.
